

Results: Flow Chart and Glossary

Long-Term Outcomes are the desired long-term changes in behavior in individuals, institutions, communities, and/or policies (most likely *not* achieved within a grant-term).

Project Objectives are the specific goals to be achieved during the grant-term that are expected to help achieve the **Long-Term Outcomes**.

Project Activities are the actions taken by grantees to deliver the **Project Objectives** and to deliver **Project Outputs**.

Project Outputs are the tangible products or services that a grantee delivers.

Project Metrics are the actual achievements against the **Project Objectives** to help assess the results of the work.
